Authorization for this examiner's amendment was given in a telephone interview with Marvin Petry on January 19, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Claims 3 and 8 have been canceled.

In claim 11, line 4, "portion pivot" has been changed to -- portion to pivot --.

In claim 20, line 2, "on the upper outer edge of the toroidal-shaped body" has been changed to -- remote from the tab portion --.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach nor fairly suggest a toroidal container having a hollow body, a top surface with an aperture, a lid having a tab hinged to an actuator portion at a radial hinge located on a radius of the body. The prior art of record teaches hinges are located on the container bodies at locations other than on a radius of the body. There is no motivation, suggestion or teaching in the prior art of record to arrange the tab portion hinged to an actuator at a radial hinge located on a radius of the body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the
